#### Announcement.

I am a candidate for the Republican nomination for probate judge, subject to the primary to be held Tuesday, May 21.

FRANK R. AMBROSE.

#### Announcement.

Judge Marcus Shoup hereby announces his candidacy for the Republican nomination for Congress in the Sixth Congressional District, subject to the primary election in May.

The Democrats are going to have a fight in this district for the delegates to the National Convention. M. R. Denver, of Wilmington, and J. W. Lingo, of Lebanon, are the Harmon candidates. L. L. Faris, of Lynchburg, and Galen P. Cline, of Clermont county, are the anti-Harmon candidates. Mr. Faris and Mr. Cline are pledged to vote for the nomination of a progressive for president, which means that they are opposed to Harmon and Underwood. If he is a candidate their first choice would be Col. Bryan. From what we can learn of the sentiment outside of Hillsboro in this county, it is strongly against Gov. Harmon and even Denver's personal popularity won't pull him through.

If Col. Roosevelt can keep up the clip he has been going the past two weeks he will finish the season with a fine batting average.

The results in the primaries in Illinois and Pennsylvania are not exactly what you would call comforting news to the friends of President Taft.

A violent and virulent epidemic of spring fever has been raging in Hillsboro for several days. It is not thought however that any of the people suffering from the disease are in a dangerous condition.

#### Dr. Brown Endorsed.

That in the candidacy of Dr. H. M. Brown for congress, the people of this district have an opportunity to select a man eminently qualified to represent an agricultural district, is shown by the following unsolicited editorial which appeared in a recent issue of the American Sheep Breeder and Wool Grower, one of the leading agricultural papers of this county:

Dr. H. M. Brown, one of our leading breeders of Lincoln and Shropshire sheep, and prominently identified with every progressive movement for the betterment of agriculture and live stock, is an active candidate for nomination for congress, as a Republican from the Sixth District of Ohio. Let it be known that Doctor Brown is not a "machine" politician, but stands firm for every sound principle upon which rests the great Republican party. He is a protectionist first, last and all the time. No one knows better than Dr. Brown the baneful influence of free trade, for under the Cleveland free wool administration he was a fellow-sufferer with 75,000 Ohio flock masters. Ohio sheep men will not forget his strong statement that headed several hundred Ohio letters in our last July number. (The great common-

wealth of Ohio needs more representatives of the Brown type. The wool growers of the nation needs advocates who know their needs like Dr. Brown. He is a cultured, high-minded citizen, with a broad grasp of the great issues that now confronts the people. Best of all, he has a clean record, and with his fitness for the high duties of the office to which he aspires, he will make an ideal representative of the people. Let every sheep man in Ohio work for the nomination and election of Dr. H. M. Brown. He will honor American agriculture and the great party he represents.

#### The Short Ballot.

A proposal is now pending before the Constitutional Convention providing for a Short Ballot for state officers. This, we believe is one of the most important matters that has been brought before that body and we heartily endorse it.

The proposal would leave only the governor, lieutenant governor and auditor as elective offices, the balance of the state officials to be appointed by the governor.

As the proposal strikes us there is every reason for its adoption and no reason for its rejection.

The Short Ballot will make the governor responsible for the proper administration of state affairs. There can be no evasion or shifting of responsibility. In the election of state officers, very little attention is paid by any of us as to who the men are that are candidates for the minor offices. We know nothing of their qualifications or ability and blindly vote for them because they are on our ticket. We doubt if there is one man in a hundred in Highland county, who remembers the name of the Republican candidate for Secretary of State, Attorney General, Dairy and Food Com-

missioner, Treasurer, Member of Board of Public Affairs or School Commissioner in 1910 or if one out of ten knew their names when they voted for them let alone knew anything about them.

Whenever we vote for a man we don't know anything about we are not casting an intelligent vote and there is no argument for permitting an unintelligent vote to be cast.

The proposed Short Ballot will place the state government on practically the same plan as the national government. The president selects the members of his cabinet and why should not the governor select his because that is practically what the minor state officials are.

The Short Ballot, we believe, is a move toward better government, a real progressive movement.
